HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of the Fund as **low to medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	--------	----------------	------

For more information about the risk rating and specific risks that can affect the Fund's returns, see the sections entitled "What are

the risks of investing in the fund?" and "Who should invest in this fund?" in the Fund's simplified prospectus.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

1. SALES CHARGES

Sales Charge Option	What You Pay		How it Works
	In Percent (%)	In Dollars (\$)	
Initial sales charge	0% to 5% of the amount you invest	\$0 to \$50 on every \$1,000 you invest	You and your representative decide on the rate. The initial sales charge is deducted from the amount you buy at the time you buy. It goes to your representative's firm as a commission. Purpose Investments Inc. does not receive any of this commission.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of December 31, 2020, the Fund's expenses were 1.97% of its value. This equals \$19.70 for every \$1,000 invested.

	Annual rate (as a % of the Fund's value)

More About the Trailing Commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Purpose Investments Inc. pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Fee	Amount of trailing commission	
	In Percent (%)	In Dollars (\$)
Trailing commission	0% to 1% of the value of your investment each year	\$0 to \$10 each year on every \$1,000 invested

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch shares of the Fund.

Fee	What you pay
Switch fee	Your representative's firm may charge you up to 2% of the value of shares that you switch to another fund. There is no fee payable to Purpose Investments Inc. for any switches of shares.
Short-term trading fee	If you sell or switch shares of the Fund within 30 days of acquisition you may be charged a short-term trading fee up to 2% of the value of the shares that you sold or switched. This fee is paid to the Fund and is in addition to any sales charge or switch fee that is payable by you to your representative's firm.

HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have

lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of the Fund as **low to medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the sections

entitled "What are the risks of investing in the fund?" and "Who should invest in this fund?" in the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series D shares of the Fund. The fees and expenses — including any commissions — can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

You do not pay a sales charge when you buy, redeem or switch your shares.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

	Annual rate (as a % of the Fund's value)
Management expense ratio (MER)	1.04%
This is the total of the Fund's management fee (including the trailing commission) and operating expenses (including administrative expenses). The manager waived some of the Fund's expenses. If it had not done so, the MER would have been higher.	
Trading expense ratio (TER)	0.13%
These are the Fund's trading costs.

Short-term trading fee	If you sell or switch shares of the Fund within 30 days of acquisition you may be charged a short-term trading fee up to 2% of the value of the shares that you sold or switched. HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have

lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of the Fund as **low to medium**.

This rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the sections

entitled "What are the risks of investing in the fund?" and "Who should invest in this fund?" in the Fund's simplified prospectus.

NO GUARANTEES

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series XUA shares of the Fund. The fees and expenses — including any commissions — can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

Sales Charge Option	What You Pay		How it Works
	In Percent (%)	In Dollars (\$)	
Initial sales charge	0% to 5% of the amount you invest	\$0 to \$50 on every \$1,000 you invest	You and your representative decide on the rate. Purpose Investments Inc. does not receive any of this commission.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of December 31, 2020, the Fund's expenses were 2.55% of its value. This equals \$25.50 for every \$1,000 invested.

This is the total of the Fund's management fee (including the trailing commission), operating expenses (including administrative expenses) and fee of up to 0.65% per annum on the value of the securities vended in and held by the Purpose In-Kind Exchange Fund, plus an amount in respect of the hedging costs incurred in connection with the holdings of the Purpose In-Kind Exchange Fund, on a pro-rata basis. The manager waived some of the Fund's expenses. If it had not done so, the MER would have been higher.

More About the Trailing Commission
