HOW RISKY IS IT?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the sections entitled "What are the risks of investing in the fund?" and "Who should invest in this fund?" of the fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

Don't buy this fund if you need a high-risk, short-term investment.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A units of the fund. The fees and expenses — including any commissions — can vary among Series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

Sales Charge Option	What You Pay		How it Works
	In Percent (%)	In Dollars (\$)	
Initial sales charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	- You and your representative decide on the rate. - The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of December 31, 2020, the Fund's expenses were 2.21% of its value. This equals \$22.10 for every \$1,000 invested.

More About the Trailing Commission

Purpose Investments Inc. pays your representative's firm a trailing commission for as long as you own the fund. The trailing commission is an ongoing commission. It is for the services and advice your representative and their firm provide to you. The trailing commission is paid out of the management fee and is based on the value of your investment.

Fee	Amount of trailing commission	
	In Percent (%)	In Dollars (\$)
Trailing Commission	1.00% of the value of your investment each year	\$10 each year on every \$1,000 invested

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch Series A units of the fund.

Fee	What you pay
Short-term trading fee	Up to 2% of the value of units you sell or switch within 30 days of buying them. This fee goes to the fund.
Switch fee	A representative may charge up to 2% of the value of the units switched to another Purpose managed mutual fund. This fee is payable by the unitholder and goes to the unitholder's representative.
Reclassification Fee	If you are switching Series A units of the fund to a different series of units of the same fund (other than Series TA6 units), you will have to pay a reclassification fee if you bought your Series A units under the low load deferred sales charge option. The reclassification fee is equal to the redemption fee you would have paid had you redeemed your Series A units.
Redemption Fee	You do not pay a sales charge to your financial advisor when you buy Series A units of the fund under the low load deferred sales charge option. You will pay a redemption fee if you sell them within three years of buying them. The table below shows the redemption fee schedule:

Redemption Fee	
Series A units	Redemption fee percentage (%) of original cost

HOW RISKY IS IT?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of

higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of this fund as **low**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.
