- Uses classic hedge-fund investment strategies such as long/short equity, and momentum and carry themes within currencies and commodities
- Daily liquidity, transparency and accessibility for every investor

INVESTMENT PROCESS

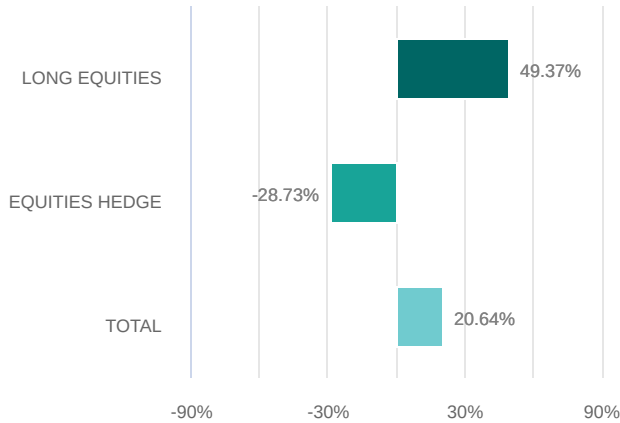

RULES-BASED APPROACH

- Research-driven approach to exploit systematic biases and inefficiencies across global asset markets
- Rules-based securities valuation based on fundamental value, quality, risk, liquidity and momentum factors
- Over-weighting the equity value factor has historically generated outperformance relative to traditional benchmarks
- Carry strategies that own higher yielding securities and short lower yielding ones contribute positive uncorrelated returns
