HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called “volatility”.

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have

lower returns and may have a lower chance of losing money.

RISK RATING

Purpose Investments Inc. has rated the volatility of the Fund as **medium to high**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

May 30, 2018

For more information about the risk rating and specific risks that can affect the Fund's returns, see the "What are the Risks of Investing in the Fund?" and "Who Should

Invest In This Fund?" sections of the Fund's simplified prospectus.

NO GUARANTEES

Like most mutual funds, this Fund doesn't have any guarantees. You may not get back the amount of money you invest.

HOW HAS THE FUND PERFORMED?

This section shows you how Series A shares of the Fund have performed in each of the past eight years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-Year Returns

This chart shows how Series A shares of the Fund have performed in each of the past eight years. The Fund dropped in value in three of the eight years. The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and Worst 3-month Returns

This table shows the best and worst returns for Series A shares of the Fund in a 3-month period over the past eight years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	37.04%	December 29, 2017	Your investment would rise to \$1370.38
Worst return	-20.09%	September 30, 2015	Your investment would drop to \$799.10

Average Return

A person who invested \$1,000 in Series A shares of the Fund since inception would have \$2266.97 as at April 30, 2018. This works out to an annual compound return of 9.83%.

WHO IS THE FUND FOR?

Investors who:

- have a moderate to high tolerance for risk;
- are not concerned about short-term price fluctuations; and
- are planning to hold investment for the medium to long term.

Do not invest in this Fund unless you are willing to accept the potential loss of a portion of your investment, or if you have a short-term investment horizon.

A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following tables show the fees and expenses you could pay to buy, own and sell Series A shares of the Fund. The fees and expenses, including any commissions, can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

There is only one sales charge option for Series A shares of the Fund.

Sales Charge Option	What You Pay		How it Works
	In Percent (%)	In Dollars (\$)	
Initial sales charge	0% to 4% of the amount you buy	\$0 to \$40 on every \$1,000 you buy	You and your representative decide on this rate. The initial sales charge is deducted from the amount you buy. It goes to your representative's firm as a commission.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of December 31, 2017, the Fund's expenses were 8.30% of its value. This equals \$83.00 for every \$1,000 invested.

	Annual rate (as a % of the Fund's value)
Management expense ratio (MER) This is the total of the Fund's management fee (which includes the trailing commission) and operating expenses. Redwood waived some of the Fund's expenses. If it had not done so, the MER would have been higher.	7.35%
Trading expense ratio (TER) These are the Fund's trading costs.	0.95%
Fund Expenses	8.30%

Incentive Fee

The Fund will pay us annually an incentive fee equal to 10% of the difference by which the return in the net asset value per share of the Fund from January 1 to December 31 exceeds the percentage return of the S&P/TSX Composite Index, multiplied by the net asset value of the series. If the performance of Series A of the Fund in any year is less than the performance of the index described above (the "Deficiency"), then no incentive fee will be payable in any subsequent year until the performance of Series A of the Fund, on a cumulative basis calculated from the first of such subsequent years, has exceeded the amount of the Deficiency.

More About the Trailing Commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Purpose Investments Inc. pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investments each year.

Fee	Amount of trailing commission	
	In Percent (%)	In Dollars (\$)
Trailing Commission	1.0% of the value of your investment each year	\$10.00 each year on every \$1,000 invested

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch shares of the Fund.

Fee	What you pay
Short-term trading fee	We will impose a short-term trading fee payable by the shareholder of up to 3% of the aggregate net asset value of the shares sold or switched within 30 days of purchase, except in limited circumstances. This fee goes to the Fund.
Switch fee	A representative may charge up to 4% of the value of the shares switched to another Redwood Fund. This fee is payable by the shareholder and goes to the Fund.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to:

- i. withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- ii. cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
