**WHAT DOES THE ETF INVEST IN?**

The ETF invests in Canadian preferred securities, with a focus on preferred securities; dividend paying Canadian equities; income and royalty trusts; ETFs; and fixed-income investments, with a view to consistent interest or distribution payments. Investments in floating rate preferred securities will be of Canadian issuers whose debt, at a minimum, has an investment grade rating at the time of purchase. Up to 5% of the fund's portfolio may be invested in equities and the ETF may invest up to approximately 20% (at the time of investment and on a cost basis) of its assets in foreign securities.

The charts below provide you with a snapshot of the ETF's investments on April 30, 2020. The ETF's investments will change.

**HOW RISKY IS IT?**

The value of the ETF can go down as well as up. You could lose money.

One way to gauge risk is to look at how much an ETF's returns change over time. This is called "volatility".

In general, ETFs with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. ETFs with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

**RISK RATING**

Purpose Investments Inc. has rated the volatility of this ETF as **low to medium**.

This rating is based on how much the ETF's returns have changed from year to year. It doesn't tell you how volatile the ETF will be in the future. The rating can change over time. An ETF with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the ETF's returns, see the sections entitled "What are the risks of investing in the fund?" and "Who should invest in this fund?" in the ETF's simplified prospectus.

**NO GUARANTEES**

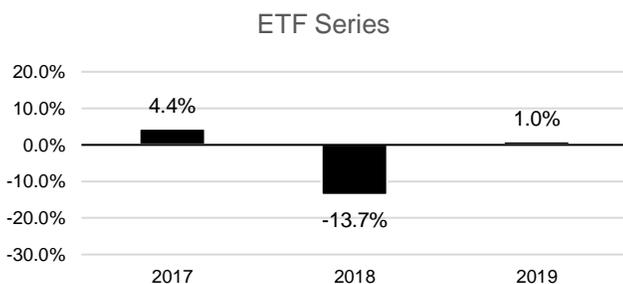

ETFs do not have any guarantees. You may not get back the amount of money you invest.

**HOW HAS THE ETF PERFORMED?**

This section tells you how the units of the ETF have performed over the past 3 years. Returns are calculated using the ETF's net asset value (NAV) after expenses have been deducted. These expenses reduce the ETF's return.

**YEAR-BY-YEAR RETURNS**

This chart shows how shares of the ETF performed in the past 3 years. The ETF dropped in value in the 1 of the 3 years. The range of returns and change from year to year

can help you assess how risky the ETF has been in the past. It does not tell you how the ETF will perform in the future.

**BEST AND WORST 3-MONTH RETURNS**

This table shows the best and worst returns for the shares of the ETF in a 3-month period over the past 3 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	6.20%	November 29, 2019	Your investment would rise to \$1,061.98
Worst return	-26.65%	March 31, 2020	Your investment would drop to \$733.48

**AVERAGE RETURN**

A person who invested \$1,000 in ETF units of the Fund since inception would have \$748.48 as at April 30, 2020. This works out to an annual compound return of -8.81%.

**TRADING ETFS**

ETFs hold a basket of investments, like mutual funds, but trade on exchanges like stocks. Here are a few things to keep in mind when trading ETFs:

**PRICING**

ETFs have two sets of prices: market price and net asset value (NAV).

**MARKET PRICE**

- ETFs are bought and sold on exchanges at the market price. The market price can change throughout the trading day. Factors like supply, demand and changes in the value of an ETF's investments can affect the market price.
- You can get price quotes any time during the trading day. Quotes have two parts: bid and ask.
- The bid is the highest price a buyer is willing to pay if you want to sell your ETF units. The ask is the lowest price a seller is willing to accept if you want to buy ETF units. The difference between the two is called the "bid-ask spread".
- In general, a smaller bid-ask spread means the ETF is more liquid. That means you are more likely to get the price you expect.

**NET ASSET VALUE (NAV)**

- Like mutual funds, ETFs have a NAV. It is calculated after the close of each trading day and reflects the value of an ETF's investments at that point in time.

- NAV is used to calculate financial information for reporting purposes – like the returns shown in this document.

## ORDERS

There are two main options for placing trades: market orders and limit orders. A market order lets you buy or sell units at the current market price. A limit order lets you set the price at which you are willing to buy or sell units.

## TIMING

In general, market prices of ETFs can be more volatile around the start and end of the trading day. Consider using a limit order or placing a trade at another time during the trading day.

## WHO IS THIS ETF FOR?

Investors who:

- are seeking a flow of income, exposure to income through a portfolio of Canadian preferred securities, potential for capital appreciation;
- want distributions paid to them monthly;
- are planning to hold investment for the medium to long term; and
- can tolerate low to medium risk

## A WORD ABOUT TAX

In general, you'll have to pay income tax on any money you make on an ETF. How much you pay depends on the tax laws where you live and whether or not you hold the ETF in a registered plan such as a Registered Retirement Savings Plan, or a Tax-Free Savings Account.

Keep in mind that if you hold your ETF in a non-registered account, distributions from the ETF are included in your taxable income, whether you get them in cash or have them reinvested.

## HOW MUCH DOES IT COST?

This section shows the fees and expenses you could pay to buy, own and sell ETF units of the ETF. Fees and expenses — including trailing commissions — can vary among ETFs. Higher commissions can influence representatives to recommend one investment over another. Ask about other ETFs and investments that may be suitable for you at a lower cost.

## 1. BROKERAGE COMMISSIONS

You may have to pay a commission every time you buy and sell ETF units of the ETF. Commissions may vary by brokerage firm. Some brokerage firms may offer commission-free ETFs or require a minimum purchase amount.

## 2. ETF EXPENSES

You do not pay these expenses directly. They affect you because they reduce the ETF's returns for the ETF units.

As of December 31, 2018, the ETF's expenses were 1.14% of its value. This equals \$11.40 for every \$1,000 invested.

	Annual rate (as a % of the ETF's value)
<b>Management expense ratio (MER)</b> This is the total of the ETF's management fee and operating expenses. The manager waived some of the ETF's expenses. If it had not done so, the MER would have been higher.	1.00%
<b>Trading expense ratio (TER)</b> These are the ETF's trading costs.	0.14%
<b>ETF Expenses</b>	<b>1.14%</b>

## TRAILING COMMISSIONS

The trailing commission is an ongoing commission. It is paid for as long as you own the ETF. It is for the services and advice that your representative and their firm provide to you.

This ETF doesn't have a trailing commission.

## WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to cancel your purchases within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the prospectus, ETF Facts or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

**WHO IS THE FUND FOR?**

Investors who:

- are seeking a flow of income, exposure to income through a portfolio of Canadian preferred securities, potential for capital appreciation;
- want distributions paid to them monthly;
- are planning to hold investment for the medium to long term; and
- can tolerate low to medium risk

**Do not invest in this Fund unless you are willing to accept the potential loss of a portion of your investment, or if you have a short-term investment horizon.**

**A WORD ABOUT TAX**

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

Ask about other funds and investments that may be suitable for you at a lower cost.

**1. SALES CHARGES**

There is only one sales charge option for Class A units of the Fund.

Sales Charge Option	What You Pay		How it Works
	In Percent (%)	In Dollars (\$)	
Initial sales charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	The rate is decided between the investor and the representative. This sales charge is deducted from the gross amount purchased, at the time of purchase, as a commission for the representative's firm.

**2. FUND EXPENSES**

You don't pay these expenses directly. They affect you because they reduce the Fund's returns.

As of December 31, 2019, the Fund's expenses were 1.81% of its value. This equals \$18.10 for every \$1,000 invested.

**More About the Trailing Commission**

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and their firm provide to you.

Purpose Investments Inc. pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment.

Fee	Amount of trailing commission	
	In Percent (%)	In Dollars (\$)
Trailing Commission	0.75% of the value of your investment each year	\$7.50 each year on every \$1,000 invested

**3. OTHER FEES**

You may have to pay other fees when you buy, hold, sell or switch units of the Fund.

Fee	What you pay
Short-term trading fee	We will impose a short-term trading fee payable by the unitholder of up to 2% of the aggregate net asset value of the units sold or switched within 30 days of purchase, except in limited circumstances. This fee goes to the Fund.
Switch fee	A representative may charge up to 2% of the value of the units switched to another Purpose Fund. This fee is payable by the unitholder and goes to the Fund.

**WHAT IF I CHANGE MY MIND?**

Under securities law in some provinces and territories, you have the right to:

- i. withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or Fund Facts document, or
- ii. cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.
