### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the portfolio management team concerning significant factors and developments that have affected the Fund's performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

## INVESTMENT OBJECTIVES AND STRATEGIES

The Purpose Enhanced US Equity Fund (the "Fund") invests in a portfolio of US listed equities, while maintaining a similar level of volatility as the broader US equity markets, in order to provide shareholders with long-term capital appreciation and superior risk adjusted returns in excess of the broader US equity markets. The Fund employs leverage to increase its long portfolio exposure, and hedges the resulting increased market risk with market index futures.

Purpose Investments Inc. ("Purpose" or the "Manager") is the manager of the Fund. Neuberger Berman Breton Hill ULC acts as the investment sub-advisor ("Investment Sub-Advisor") to the Fund.

The Fund selects its portfolio of North American equities through a multi-factor, fundamental rules-based selection strategy that emphasizes factors effective in differentiating between strong and weak performing stocks, including: fundamental change, valuation, growth and quality. The Fund utilizes leverage to achieve market exposure to the long portfolio, targeted at 130% of the NAV, and may borrow up to 35% of the NAV to implement its investment strategies.

The Fund reduces overall market risk associated with the leveraged portion of the portfolio investments by hedging up to 30% of the portfolio's market exposure such that the net market exposure of the Fund is generally targeted at 100% of the NAV.

## RISK

The risks of investing in the Fund are disclosed in the Fund's prospectus and there have been no significant changes during the period that affected the overall level of risk associated with the Fund.

## RESULTS OF OPERATIONS

The Fund offers ETF shares listed on the Toronto Stock Exchange under the ticker PEU and PEU.B and mutual fund series in currency hedged, non-currency hedged and U.S. Dollar purchase option.

During the period ended June 30, 2018 the Fund did not pay a dividend.

The net asset value per share as at:

Series	June 30, 2018 (\$)	December 31, 2017 (\$)
ETF Share	26.08	27.62
Series A	25.17	26.73
Series F	26.12	27.66
Series D	25.80	27.37
Series XF	23.23	24.67
ETF Non-Currency Hedged Share	30.47	30.63
Series A – Non-Currency Hedged	29.30	29.59
Series A – Non-Currency Hedged (USD)*	22.29	23.54
Series F – Non-Currency Hedged	30.54	30.69
Series F – Non-Currency Hedged (USD)*	23.23	24.41

\* The Series A – Non-Currency Hedged and the Series F – Non-Currency Hedged have both a CAD and USD purchase option.

Markets during the first half of 2018 have been characterized by resilient earnings and economic momentum, overlaid with increasing market volatility as the market grapples with a variety of heightened macroeconomic concerns. In Q1, worries about the direction of US interest rates were the primary basis of investor fears as inflation began to show signs of heating up. The focus has subsequently shifted to rising trade tensions between the US and the rest of the world, where tariff implementation has an impact on product demand and the potential to meaningfully disrupt global supply chains.

Global equity markets have been generally positive in aggregate over the first half of the year, led by growth and momentum names while value has lagged. From a sector perspective, information technology, consumer discretionary and energy have all been strong while consumer staples, telecom services, financials and industrials have lagged. Thematically, businesses that are positioned to be on the right side of technological development continue to lead, while industries with old school business models, slim margins, limited pricing power and input price sensitivity lagged.

The Fund performed negatively in this environment, principally due to value factor underperformance. Our strategy incorporates quantitative screening for securities that appear attractive from a value perspective, hedged with broad market index positions. The hedge position has detracted disproportionately from performance, combining with detracting performance from consumer and industrial sectors to outweigh positive contributions from energy, healthcare, materials and information technology.

There have been no material changes to the Fund's strategy during the first half of the year, and no significant changes to the Fund's composition outside normal rebalancing triggered by the Fund's rules-based investment discipline.

## LEVERAGE

The Fund may employ leverage in an amount up to 35% of the Fund's net assets to implement its investment strategies. During the period: the minimum and maximum amount borrowed was US\$1,148,000 and US\$1,175,000 (2017 – US\$1,175,000 and US\$1,383,000), respectively; the percentage of net assets of the Fund that the borrowing represented at June 30, 2018 was 18.8% (December 31, 2016 – 17.3%); and the terms of the borrowing were based on the Federal Funds and LIBOR rate plus a spread. As at June 30, 2018, the interest rate was 2.37% (December 31, 2017 – 1.82%). Investments are used as collateral against the borrowed funds.

## RECENT DEVELOPMENTS

The members of the Independent Review Committee as at December 31, 2017 were Douglas G. Hall (Chair), Randall C. Barnes, and Michael Hollend. On February 5, 2018 Michael Hollend ceased being a member of the Independent Review Committee. The vacant position was filled by Jean M. Fraser on May 18, 2018.

## RELATED PARTY TRANSACTIONS

Purpose is deemed to be a related party as Manager of the Fund. Please refer below to the "Management Fee" section for fees paid to Purpose. Purpose has also appointed an Independent Review Committee ("IRC") as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager's written policies and procedures that deal with conflict of interest matters in respect of the Funds. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Funds are reported in the Statements of Comprehensive Income. There are no other related party transactions for the Fund.

**INDEPENDENT REVIEW COMMITTEE**

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

1. This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of shareholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with shareholders.
2. Net assets and dividends are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of shares outstanding over the financial period.

Notes:

1. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown, except 2018 which is shown as at June 30.
2. The management expense ratio ("MER") is calculated as the total expenses, excluding dividends, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. If the Fund invests in underlying funds managed by the Manager, the Manager does not charge management fees and administrative fees that would result in the duplication of a fee for the same services.
3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all series of shares of the Fund.
4. The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's investment sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all series of shares of the Fund.

1. This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of shareholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with shareholders.
2. Net assets and dividends are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of shares outstanding over the financial period.

Notes:

1. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown, except 2018 which is shown as at June 30.
2. The management expense ratio ("MER") is calculated as the total expenses, excluding dividends, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. If the Fund invests in underlying funds managed by the Manager, the Manager does not charge management fees and administrative fees that would result in the duplication of a fee for the same services.
3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all series of shares of the Fund.
4. The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's investment sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all series of shares of the Fund.
5. The Series A shares, Series F shares, Series D shares, and Series XF shares of the Fund are not traded on a stock exchange.

**MANAGEMENT FEES**

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides to the Fund, Purpose is entitled to receive an annual management fee in an amount equal to 0.80% of the NAV of the ETF shares (Hedged and Non-Hedged), 1.80% of the Series A shares (Hedged and Non-Hedged), 0.80% of the Series F shares (Hedged and Non-Hedged), 1.05% of the Series D shares (Hedged), 0.80% of the Series XF shares (Hedged). The management fees are calculated daily and paid monthly in arrears. Purpose utilizes the management fees to pay investment sub-advisory fees, service fees to registered dealers of Series A and Series D shareholders, general and administrative expenses and earn revenue.

In addition, Series XF shares will pay an additional fee of up to 0.65% per annum on the NAV of the Purpose In-Kind Exchange Fund, plus an amount in respect of hedging cost incurred in connection with the holdings of the Purpose In-Kind Exchange Fund, on a pro-rata basis.

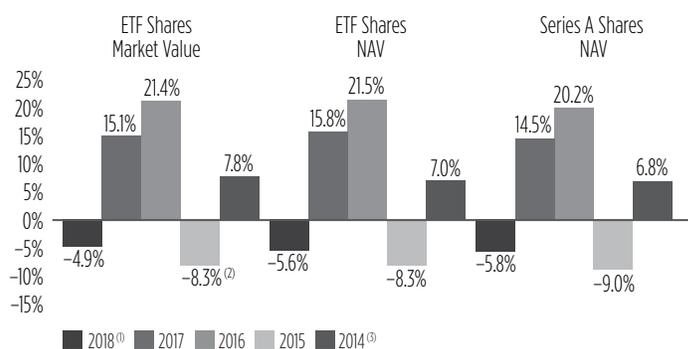

The Fund may from time to time invest in the Purpose High Interest Savings ETF ("HIS"), a money market investment fund, which is a related fund managed by Purpose. An investment in HIS may be made where it is an efficient and cost-effective way for the Fund to invest cash it may hold from time to time. The investment may only be made on the basis that there shall be no duplication of management fees.

**PAST PERFORMANCE**

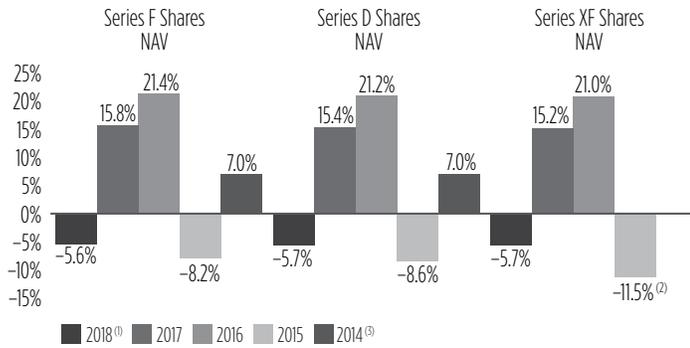

Please note that the performance information shown in this section assumes that all dividends made by the Fund, if any, in the periods shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, distributions or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

**YEAR-BY-YEAR RETURNS**

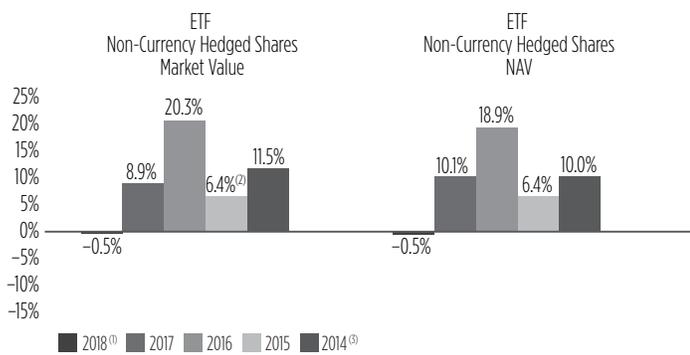

The bar charts show the performance of each series of shares for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period.
