CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the manager and the portfolio management team concerning significant factors and developments that have affected the Fund's performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

INVESTMENT OBJECTIVES AND STRATEGIES

The Fund seeks to achieve a positive total return (including through both capital appreciation and distributions) in diverse market environments over time by tactically allocating its assets primarily among a broad range of government and corporate investment grade fixed income securities.

Purpose Investments Inc. ("Purpose" or the "Manager") is the manager of the Fund. Neuberger Berman Breton Hill ULC acts as the investment sub-advisor ("Investment Sub-Advisor") to the Fund. The Fund seeks to achieve its investment objectives by investing in long and short positions across multiple asset classes, which may include, but are not limited to, equity securities, fixed income securities, commodities and currencies. Positions are chosen based on an analysis of technical trends and fundamental outperformance factors that are tailored to each asset class. The Fund's investment strategy is designed to provide market-neutral returns that are non-correlated to the broader equity and fixed income markets.

RISK

The risks of investing in the Fund are disclosed in the Fund's prospectus and there were no meaningful changes in the portfolio that affected risk during the reporting period.

RESULTS OF OPERATIONS

The Fund offers ETF Units listed on the Toronto Stock Exchange under the ticker BND and mutual fund classes.

The net asset value per unit as at:

Class	June 30, 2018 (\$)	December 31, 2017 (\$)
ETF Units	19.11	19.61
Class A	18.84	19.39
Class F	19.12	19.62
Class D	19.05	19.60

During the period ended June 30, 2018, the Fund paid distributions as follows:

Month	ETF Units (\$)	Class A Units (\$)	Class F Units (\$)	Class D Units (\$)
January	0.0630	0.0630	0.0630	0.0630
February	0.0630	0.0622	0.0630	0.0630
March	0.0630	0.0622	0.0630	0.0630
April	0.0630	0.0622	0.0630	0.0630
May	0.0630	0.0622	0.0630	0.0630
June	0.0630	0.0622	0.0630	0.0630
Total	0.3780	0.3740	0.3780	0.3780

In the first half of 2018, investor uncertainty was propelled by looming trade wars between major trading nations, notably China and the United States. This, compounded by a lack of progress regarding the North American Free Trade Agreement early in the period, led to negative impacts in the sectors influenced most reliant on cross-border trade. Volatility returned to the market in February as a strong US payroll number and an uptick in inflation drove US bonds lower

across the board. Investors worried that growth and equity multiples could be negatively impacted as 10-year yields accelerated.

Domestically, in response to trade uncertainty, rising inflation, and little slack in the labour market the Bank of Canada (BoC) raised the rates twice, ultimately reaching 1.50% with both rate hikes occurring in Q2 of 2018. Against this backdrop, the Fund had negative returns.

No significant sector shifts occurred during the period. The Financial Sector was a top contributor to Fund performance. Canadian Corporate Bonds were largely positive over the period, overall, contributing to fund returns. There were no major detractors from fund performance, although high yield was a slight detractor.

RECENT DEVELOPMENTS

There were no changes to the Manager of the Fund, nor were there any changes to the investment philosophy or process. The Fund continues to target enhanced monthly income from an investment-grade portfolio and option overlay strategy.

Fund positioning and the Manager's outlook remain the same. The Manager continues to employ an interest-rate hedging strategy to minimize duration risk while focusing on holding positions in investment-grade bonds.

The members of the Independent Review Committee as at December 31, 2017 were Douglas G. Hall (Chair), Randall C. Barnes, and Michael Hollend. On February 5, 2018 Michael Hollend ceased being a member of the Independent Review Committee. The vacant position was filled by Jean M. Fraser on May 18, 2018.

RELATED PARTY TRANSACTIONS

Purpose is deemed to be a related party as Manager of the Fund. Please refer below to the "Management Fee" section for fees paid to Purpose. Purpose has also appointed an Independent Review Committee ("IRC") as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager's written policies and procedures that deal with conflict of interest matters in respect of the Funds. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Funds are reported in the Statement of Comprehensive Income. There are no other related party transactions for the Fund.

INDEPENDENT REVIEW COMMITTEE

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

1. This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of unitholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with unitholders.
2. Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of units outstanding over the financial period.
3. Distributions were paid in cash or reinvested in additional units of the Fund.

Notes:

1. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown except 2018 which is shown as at June 30.
2. The management expense ratio ("MER") is calculated as the total expenses, excluding distributions, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. The MER includes an allocation of expenses from the underlying funds held in the portfolio. Without the allocation, the MER would be 0.46% (2017 - 0.46%, 2016 - 0.46%).
3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all classes of units of the Fund.
4. The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's investment sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all classes of units of the Fund.

MANAGEMENT FEES

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides to the Fund, Purpose is entitled to receive an annual management fee in an amount equal to 0.35% of the NAV of the ETF units, Class A units, Class F units, and Class D units. The management fees are calculated daily and paid monthly in arrears. Purpose utilizes 100% of the management fees to pay investment sub-advisory fees, general and administrative expenses and earn revenue.

In addition, Purpose is paid an amount equal to the service fee (the “Service Fee”) payable to registered dealers of unitholders of the Class A units and the Class D units, which is equal to an annual amount of 0.50% and 0.15% of the NAV of such units, respectively. The Service Fee is calculated daily and paid quarterly in arrears.

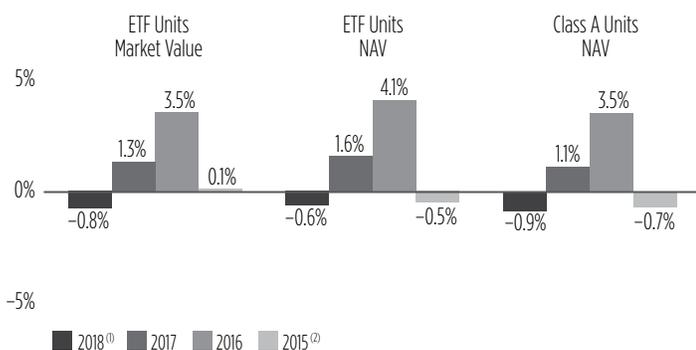

The Fund may from time to time invest in other investment funds which are related funds managed by Purpose. An investment is made where it is an efficient and cost-effective way for the Fund to execute its investment strategy. The Investment may only be made on the basis that there will be no duplication of management fees.

PAST PERFORMANCE

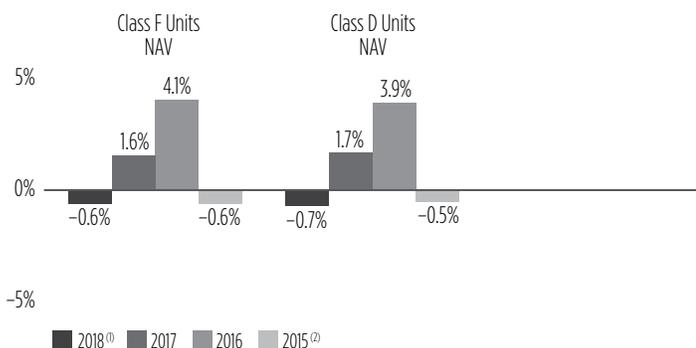

Please note that the performance information shown in this section assumes that all distributions made by the Fund, if any, in the period shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, distributions or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS

The bar charts show the performance of each Class of units for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period.
