CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the manager and the portfolio management team concerning significant factors and developments that have affected the Fund’s performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

On March 31, 2018, Redwood Asset Management Inc. (“Redwood”) was amalgamated into Purpose Investments Inc. (“Purpose”). The name of the Fund was changed to Purpose Tactical Asset Allocation Fund.

INVESTMENT OBJECTIVE AND STRATEGIES

The investment objective of Purpose Tactical Asset Allocation Fund (formerly Redwood Tactical Asset Allocation Fund) (the “Fund”) is to provide long-term capital appreciation with lower volatility and correlation to the overall equity markets by investing in Exchange-Traded Funds (“ETFs”) that are listed on North American exchanges and that present North American equities, bonds and cash, using a tactical approach.

RISK

The risks associated with investing in the Fund are as described in the simplified prospectus. There were no material changes to the Fund over the period that affected the overall level or risk of the Fund.

RESULTS OF OPERATIONS

The net asset value per share as at:

Series	June 30, 2018 (\$)	December 31, 2017 (\$)
ETF	20.34	19.84
Series A	10.75	10.54
Series F	11.07	10.79

During the period ended June 30, 2018, the Fund did not pay a distribution.

Markets during the first half of 2018 have been characterized by resilient earnings and economic momentum, overlaid with increasing market volatility as the market grapples with a variety of heightened macroeconomic concerns. In Q1, worries about the direction of US interest rates were the primary basis of investor fears as inflation began to show signs of heating up. The focus has subsequently shifted to rising trade tensions between the US and the rest of the world, where tariff implementation has an impact on product demand and the potential to meaningfully disrupt global supply chains.

Global equity markets have been generally positive in aggregate over the first half of 2018, led by growth and momentum names while value has lagged. US markets have gained modestly, while most other geographies have lagged. Europe has been impacted by heightened political uncertainty, while changing relative interest rate expectations and the follow-through impact on currencies has been a key driver of relative market performance across the board.

US Treasury yields have shown signs of life in 2018, with the 10-year picking up sharply in Q1, before touching a seven-year high in May before risk aversion led to “safe-haven” buying that pushed yields back down in June. With the US economy in particular continuing to show strength, inflationary pressures are building. However, the amount of macro risk floating around is causing the market to question how hawkish the FOMC can continue to be on a forward-looking basis.

The Fund has performed well in this environment. The manager tightly controlled equity and duration exposures early in the year when markets were under pressure and increased risk as the sentiment and

markets recovered, which coordinated well with the price action in its underlying holdings.

There was no change to the strategy during the first half of 2016, although the equity/fixed income balance shifted significantly which is entirely within the Fund’s mandate.

On March 31, 2018, Redwood Asset Management Inc. (“Redwood”) was amalgamated into Purpose Investments Inc. (“Purpose”). The name of the Fund was changed to Purpose Tactical Asset Allocation Fund.

RECENT DEVELOPMENTS

The members of the Independent Review Committee as at December 31, 2017 were Douglas G. Hall (Chair), Randall C. Barnes, and Michael Hollend. On February 5, 2018 Michael Hollend ceased being a member of the Independent Review Committee. The vacant position was filled by Jean M. Fraser on May 18, 2018.

RELATED-PARTY TRANSACTIONS

Purpose Investments Inc. is deemed to be a related party as Manager of the Fund. Please refer below to the “Management Fee” section for fees paid to Purpose. Purpose has also appointed an Independent Review Committee (“IRC”) as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager’s written policies and procedures that deal with conflict of interest matters in respect of the Funds. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Fund is reported in the Statement of Comprehensive Income.

The Manager pays for expenses on behalf of the Fund and recharges the Fund for those expenses in the form of management fees.

INDEPENDENT REVIEW COMMITTEE

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the 6 month period ended June 30, the 4 month period ended December 31 and 12 month periods ended August 31. The information on the following tables is based on prescribed regulations and as a result, is not expected to add down due to the increase (decrease) in net assets from operations being based on average shares outstanding during the period and all other numbers being based on actual shares outstanding at the relevant point in time.

1. This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of shareholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with shareholders.

2. Net assets and dividends are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of shares outstanding over the financial period.

3. Dividends were paid in cash or reinvested in additional shares of the Fund.

1. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown.

2. The management expense ratio ("MER") is calculated as the total expenses, excluding dividends, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. If the Fund invests in underlying funds managed by the Manager, the Manager does not charge management fees and administrative fees that would result in the duplication of a fee for the same services. The MER includes an allocation of expenses from the underlying funds held in the portfolio. Without the allocation, the MER would be 0.84% (December 31, 2017 - 0.86%, August 31, 2017 - 1.15%).

3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all series of shares of the Fund.

4. The portfolio turnover rate is based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's investment advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all series of shares of the Fund.

MANAGEMENT FEE

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides to the Fund, Purpose is entitled to receive an annual management fee at an amount equal to 2.00% of the average net assets of Series A and 1.00% of Series F and ETF Shares. The management fees are calculated daily and paid monthly in arrears. Purpose utilizes 100% of the management fees to pay for investment subadvisory fees, service fees to registered dealers of Series A shareholders and to earn revenue.

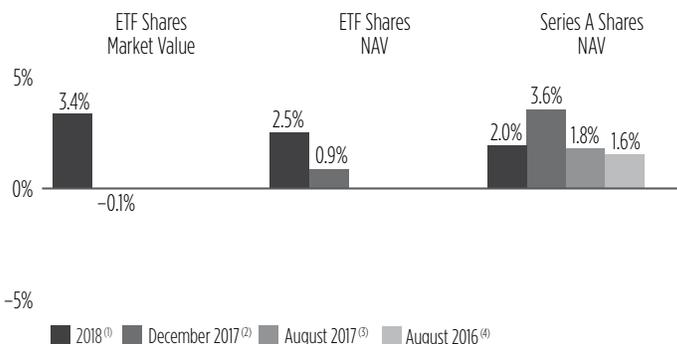

The Fund started rebating 0.10% of the management fee charged on Series A and Series F shares on January 9, 2017. The Fund started rebating 0.25% of the management fee charged on ETF, Series A and Series F shares on October 10, 2017.

PAST PERFORMANCE

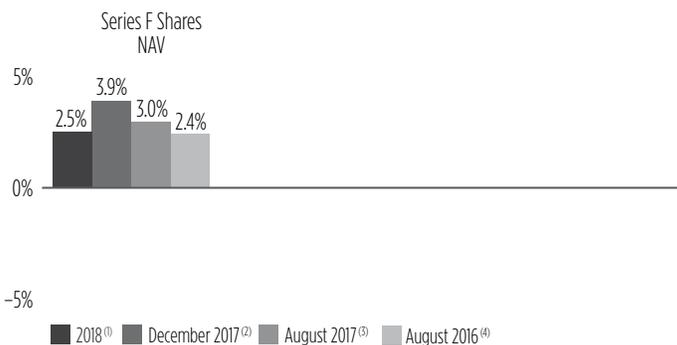

Please note that the performance information shown in this section assumes that all dividends made by the Fund, if any, in the periods shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, dividends or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS

The following chart indicates the performance of each Series of the Fund as of the operations commencement date. The chart shows how much an investment made at the Fund's commencement would have increased/decreased, in percentage terms, by the last day of each financial year.

1. Return from January 1, 2018 to June 30, 2018.
