This prospectus supplement qualifies the distribution of convertible Class A2 Units (the “**Class A2 Units**”) and Class T Units (the “**Class T Units**”) and, together with the Class A2 Units, the “**Offered Units**”) at a price of \$10.00 per Class A2 Unit and \$9.69 per Class T Unit (the “**Offering**”). The Fund uses the *Unit Traded Fund (UTF)* structure. See “*Unit Traded Fund Structure*”.

This prospectus supplement contains information that supplements the information contained in the Fund’s short form base shelf prospectus dated April 29, 2016 (the “**base shelf prospectus**”) into which this prospectus supplement is incorporated by reference.

Purpose Investments Inc. (“**Purpose**”) is the manager of the Fund (the “**Manager**”) and has retained Breton Hill Capital Ltd. to act as the sub-advisor to the Fund (the “**Sub-Advisor**”) and to implement the investment strategy of the Fund.

The Fund’s outstanding Class T Units are listed and posted for trading on the Toronto Stock Exchange (the “**TSX**”) under the trading symbol “PUB.UN”. As of May 30, 2016, the latest closing price for the Class T Units on the TSX was \$9.53, and the net asset value (“**NAV**”) per Class T Unit on the same date of such closing price was \$9.64.

Minimum Purchase: 100 Units

	Price to the Public⁽¹⁾	Agents' Fees⁽²⁾	Net Proceeds to the Fund⁽²⁾⁽³⁾

- (1) The Offering price was established by negotiation between the Manager and the Agents (as defined below). The price per Class T Unit offered under this prospectus supplement is equal to or exceeds the most recently calculated NAV per Class T Unit, plus the expenses of the Offering expected to be borne by the Fund.
- (2) No compensation will be paid by the Fund to the Agents. The Promoter, out of its own account, will pay a fee to the Agents equal to \$0.25 per Class A2 Unit issued. In addition, for a period of time, the Manager will pay to the Agents an annual deferred compensation in relation to the Offering equal to (i) 0.50% of the NAV of the Fund, and (ii) 1.32% of the aggregate net asset value of all Class T Units that are purchased and cancelled by the Fund during the year under the mandatory market purchase program. Such annual deferred compensation in relation to the Offering will be payable until the aggregate amount of fees paid to the Agents in relation to the Offering equals 2.00% of the aggregate gross proceeds from the Offering. See "Plan of Distribution".
- (3) Before deducting the expenses of the Offering, estimated to be \$200,000, which will be borne by the Fund up to a maximum of 0.50% of the gross proceeds of the Offering. The Promoter will bear the expenses of the Offering in excess of 0.50% of the gross proceeds of the Offering.
- (4) **There is no minimum amount of funds that must be raised under this Offering. This means that the Fund could complete this Offering after raising only a small proportion of the Offering amount set out above.**
- (5) The Fund has granted the Agents an option (the "Over-Allotment Option"), exercisable for a period of 30 days following the closing of the Offering, to purchase additional Class T Units in an amount up to 15% of the aggregate number of Class T Units issued at the closing of the Offering on the same terms as set forth above. If only Class T Units are issued under the Offering and the Over-Allotment Option is exercised in full, under the maximum Offering, the price to the public, the Agents' fees and the net proceeds to the Fund, before deducting the expenses of the Offering, will be \$17,250,000, nil and \$17,250,000, respectively. This prospectus supplement also qualifies the grant of the Over-Allotment Option and the distribution of the Class T Units issuable on the exercise of the Over-Allotment Option. A purchaser who acquires Class T Units forming part of the over-allocation position acquires those Class T Units under this prospectus supplement, regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases. See "Plan of Distribution".

The following table sets forth certain terms of the Over-Allotment Option (assuming only Class T Units are issued under the Offering), including the maximum size, the exercise period and the exercise price:

	<u>Maximum Size</u>	<u>Exercise Period</u>	<u>Exercise Price</u>
Over-Allotment Option	232,198 Class T Units	30 days from the date of closing of the Offering	\$9.69 per Class T Unit

No commission will be paid at the closing of the Offering to Agents that sell Class T Units. A commission of \$0.25 per Class A2 Unit will be paid at the closing of the Offering by the Promoter to Agents that sell Class A2 Units. Class A2 Units are intended to be purchased under the Offering by investors who intend to hold their Class A2 Units for at least thirty-two (32) months with the understanding that an Early Exchange Fee (as defined below) will apply if their Class A2 Units are redeemed or converted prior to such thirty-two (32) month period. Thirty-two (32) months after the closing of the Offering, the Class A2 Units will automatically convert into Class T Units. See "Description of the Offered Units".

There currently is no market through which Class A2 Units may be sold and purchasers may not be able to resell Class A2 Units purchased under this prospectus supplement. The Fund will not apply to list the Class A2 Units on an exchange. Holders of Class A2 Units may convert Class A2 Units into Class T Units on a weekly basis and it is expected that liquidity for the Class A2 Units will be primarily obtained by means of conversion into Class T Units and the sale of those Class T Units on the exchange. See "Plan of Distribution" and "Description of the Offered Units – Conversion of Class A2 Units into Class T Units".

The TSX has conditionally approved the listing of the Class T Units distributed under this prospectus supplement on the TSX, subject to fulfilling all of the listing requirements of the TSX on or before August 4, 2016.

See “Risk Factors” in the base shelf prospectus for a discussion of various risk factors that should be considered by prospective purchasers of Offered Units.

The Fund declared a distribution of \$0.0417 per unit to holders of Class T Units and Class A Units of record on May 31, 2016 (the “May Distribution”). As closing of this Offering will occur after the record date for the May Distribution, purchasers of the Offered Units pursuant to this Offering will not be eligible to receive the May Distribution.

National Bank Financial Inc., BMO Nesbitt Burns Inc., CIBC World Markets Inc., Scotia Capital Inc., GMP Securities L.P., Canaccord Genuity Corp., Desjardins Securities Inc., Industrial Alliance Securities Inc., Raymond James Ltd., Mackie Research Capital Corporation and Manulife Securities Incorporated (collectively, the “Agents”) conditionally offer the Offered Units, subject to prior sale, on a best efforts basis, if, as and when issued by the Fund and accepted by the Agents in accordance with the conditions contained in the Agency Agreement referred to under “Plan of Distribution”, and subject to the approval of certain legal matters by Fasken Martineau DuMoulin LLP on behalf of the Fund and Blake, Cassels & Graydon LLP on behalf of the Agents. The Agents may over-allot and effect transactions to cover their over-allotted position. In connection with this Offering and in accordance with and subject to applicable laws, the Agents may engage in transactions that stabilize or maintain the market price of the Class T Units at levels other than those which might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time. See “Plan of Distribution”.

National Bank Financial Inc., which is one of the Agents and the Promoter, is an affiliate of NBCN Inc. which provides the Fund with a prime brokerage facility, the proceeds of which are used by the Fund for various purposes, including purchasing additional securities for the Portfolio, effecting market purchases of Units, maintaining liquidity and funding redemptions. NBCN Inc. is also the custodian for the Fund. Consequently, the Fund may be considered a “connected issuer” of National Bank Financial Inc. under applicable securities legislation. See “Relationship Between Investment Fund and Agents” and “Plan of Distribution”. National Bank Financial Inc. will receive no benefit in connection with this Offering other than receiving from the Fund the fee payable to the Promoter and a portion of the Agents’ fees described under “Fees and Expenses”.

Subscriptions for Offered Units will be received subject to acceptance or rejection in whole or in part and the right is reserved to close the subscription books at any time without notice. Closing of the Offering is expected to occur on or about June 8, 2016 (the “Closing Date”), or such later date as the Fund and the Agents may agree, but in any event not later than 90 days after the date of this prospectus supplement. Registrations and transfers of Offered Units will be effected through the book-entry only system administered by CDS Clearing and Depository Services Inc. Beneficial owners will not have the right to receive physical certificates evidencing their ownership.

Since its initial public offering on December 14, 2015 to May 30, 2016, the daily volume-weighted average trading price of the Fund’s Class T Units on the TSX has varied between a discount of 5.56% to the NAV per Class T Unit, and a premium of 13.27% over the NAV per Class T Unit. Since the inception of the Fund to May 30, 2016, the volume-weighted average trading price to the NAV per Class T Unit has been at a premium of 4.13%.

DESCRIPTION OF THE OFFERED UNITS

General

See “Description of the Units” in the base shelf prospectus for a description of the attributes of the Class T Units and the Class A2 Units as Convertible Units.

The Class A2 Units are Convertible Units as described in the base shelf prospectus. In addition to the attributes described in the base shelf prospectus, the Class A2 Units have the following attributes, which supplement the information contained in the base shelf prospectus in relation to Convertible Units described therein.

Conversion of Class A2 Units into Class T Units

Holders of Class A2 Units may convert Class A2 Units into Class T Units on a weekly basis in accordance with the Declaration of Trust and it is expected that liquidity for the Class A2 Units will be primarily obtained by means of conversion into Class T Units and the sale of those Class T Units on the exchange. Class A2 Units may be converted in any week on the first Business Day of such week (each a “**Conversion Date**”) by delivering a notice and surrendering such Units by 3:00 p.m. (Toronto time) at least five Business Days prior to the relevant Conversion Date.

Class A2 Units will be automatically converted into Class T Units on the Automatic Conversion Date, with no Early Exchange Fee. **Any conversion of Class A2 Units into Class T Units prior to the Automatic Conversion Date will be subject to an Early Exchange Fee per Class A2 Unit converted of up to 3.00% of the**

NAV per Class A2 Unit, declining over time, as described under “Fees and Expenses – Fees and Expenses Payable by Unitholders”. The Fund will redeem such number of Class A2 Units from those otherwise being converted as is necessary to pay the Early Exchange Fee and will deduct the Early Exchange Fee from the redemption proceeds. The Early Exchange Fee so deducted by the Fund will be remitted by the Fund, on behalf of the Unitholder, to the Promoter.

For each Class A2 Unit converted, a holder will receive the number of Class T Units that is equal to (i) the NAV per Class A2 Unit, as of the close of trading on the relevant Conversion Date, divided by (ii) the NAV per Class T Unit as of the close of trading on such Conversion Date. With respect to the total number of Class A2 Units being converted by a holder on a Conversion Date or the Automatic Conversion Date, no fractional Class T Unit will be issued to the holder and, instead, the aggregate number of Class T Units issuable to the holder will be rounded down to the nearest whole number.

Monthly Redemptions of Class A2 Units and Class T Units

In addition to the annual redemption right for Class T Units (described in the base shelf prospectus under “Description of the Units – Annual Redemption of Class T Units”), holders of Class A2 Units and Class T Units may make a redemption request at any time, in which case the Fund will redeem the Units on the second last Business Day of each month (a “**Monthly Redemption Date**”), subject to certain conditions, and in order to effect such a redemption, the Units must be surrendered by no later than 5:00 p.m. (Toronto time) on the date which is the last Business Day of the month preceding the month in which the Monthly Redemption Date falls. Payment of the redemption price will be made on the Redemption Payment Date, subject to the Manager’s right to suspend redemptions in certain circumstances. A Unitholder who properly surrenders a Class T Unit for redemption during the Notice Period for an annual redemption will receive the Annual Redemption Price.

Monthly Redemption Price for Class T Units

A Unitholder who properly surrenders a Class T Unit for redemption on a Monthly Redemption Date, will receive the amount (the “**Monthly Redemption Price**”), if any, equal to the lesser of (i) 95% of the Market Price and (ii) 100% of the Closing Price of a Class T Unit on the applicable Monthly Redemption Date, less, in each case, any costs associated with the redemption including brokerage fees, commissions and other transaction costs incurred by the Fund in order to fund such redemption, if any. Notwithstanding the foregoing, the Monthly Redemption Price with respect to a Class T Unit being redeemed on such date will not be greater than 100% of the NAV per Class T Unit on the Monthly Redemption Date.

Monthly Redemption Price for Class A2 Units

Unitholders surrendering a Class A2 Unit for redemption will receive an amount equal to the product of (i) the Monthly Redemption Price, and (ii) a fraction, the numerator of which is the most recently calculated NAV per Class A2 Unit and the denominator of which is the most recently calculated NAV per Class T Unit. Notwithstanding the foregoing, the Monthly Redemption Price to a Class A2 Unit being redeemed on such date will not be greater than 100% of the NAV per Class A2 Unit on the Monthly Redemption Date. **In addition, any redemption of Class A2 Units prior to the Automatic Conversion Date will be subject to an Early Exchange Fee of up to 3.00%, declining over time, as described under “Fees and Expenses”.**

Please refer to the base shelf prospectus under “Description of the Units” for a description of the procedure involved in exercising redemption rights and the ability of the Manager to suspend redemption rights in certain circumstances and recirculate Units tendered for redemption.

Distribution Policy

Please see the base shelf prospectus under “Description of the Units – Distribution Policy” for a description of the Fund’s distribution policy and target monthly distribution amount.

Mandatory Market Purchase Program

Please see the base shelf prospectus under “Description of the Units – Mandatory Market Purchase Program” for a description of the mandatory market purchase program for the Class T Units.

If only Class T Units are issued under the Offering and the Over-Allotment Option is exercised in full, under the maximum Offering, the price to the public, the Agents' fees and the net proceeds to the Fund, before deducting the expenses of the Offering, will be \$17,250,000 nil and \$17,250,000, respectively. FEES AND EXPENSES

Fees and Expenses Payable by the Fund

Expenses of the Offering

The expenses of the Offering (including the costs of printing and preparing this prospectus supplement, legal expenses of the Fund, marketing expenses, certain expenses incurred by the Agents and certain other expenses) (but excluding the Agents' fees) are estimated to be \$200,000 and will be borne by the Fund subject to a maximum of 0.50% of the gross proceeds of the Offering. The Promoter will bear the expenses of the Offering in excess of 0.50% of the gross proceeds of the Offering.

The portion of the Management Fee described in (ii) above will be waived by the Manager from time to time during such periods when it is under no obligation to be compensating registered dealers for selling Units of the Fund (either under this Offering or any other distribution of Units of the Fund). The Sub-Advisor is remunerated by the Manager out of the Management Fee. The Manager pays to the Agents the annual deferred compensation described under "Plan of Distribution" out of the Management Fee.

INCOME TAX CONSIDERATIONS

See “Income Tax Considerations” in the base shelf prospectus for a description of certain income tax considerations applicable to the Offered Units.

PLAN OF DISTRIBUTION

Pursuant to the Agency Agreement, the Agents have agreed to offer the Offered Units for sale, as agents of the Fund, on a best efforts basis, if, as and when issued by the Fund. As negotiated between the Agents and the Manager, the Offered Units will be issued at a price of \$10.00 per Class A2 Unit and \$9.69 per Class T Unit payable, in either case, in cash with a minimum purchase of 100 Offered Units. The price per Offered Unit was established by negotiation between the Fund and the Agents. In consideration for their services in connection with this Offering, the Promoter will pay to the Agents a fee of \$0.25 per Class A2 Unit sold under this Offering, substantially all of which is expected to be paid by the Agents to their individual representatives who sold the Class A2 Units. The Agents also will be reimbursed by the Fund for reasonable out-of-pocket expenses incurred by them. In addition, the Manager will pay to the Agents out of the Management Fee an annual deferred compensation equal to (i) 0.50% of the NAV of the Fund, and (ii) 1.32% of the aggregate net asset value of all Class T Units that are purchased and cancelled by the Fund during the year under the mandatory market purchase program. No portion of the annual deferred compensation is expected to be paid by the Agents to their individual representatives. The annual deferred compensation in relation to the Offering will be paid until the amount of deferred compensation paid to the Agents in relation to the Offering equals 2.00% of the aggregate gross proceeds from the Offering. The Agents may form a sub-agency group including other qualified dealers and determine the fee payable to the members of such group, which fee will be paid by the Agents out of their fees. While the Agents have agreed to use their best efforts to sell the Offered Units offered hereby, the Agents will not be obligated to purchase any Offered Units that are not sold. Under the terms of the Agency Agreement, the Agents may, at their discretion on the basis of their assessment of the state of the financial markets and upon the occurrence of certain stated events, terminate the Agency Agreement and withdraw all subscriptions for Offered Units on behalf of subscribers.

The Fund has granted the Agents the Over-Allotment Option, exercisable for a period of 30 days following the closing of the Offering, to purchase additional Class T Units in an amount up to 15% of the aggregate number of Class T Units issued at the closing of the Offering on the same terms as those under the Offering. If only Class T Units are issued under the Offering and the Over-Allotment Option is exercised in full, under the maximum Offering, the price to the public, the Agents’ fees and the net proceeds to the Fund, before deducting the expenses of the Offering, will be \$17,250,000, nil and \$17,250,000, respectively. This prospectus supplement also qualifies the grant of the Over-Allotment Option and the distribution of the Class T Units issuable on the exercise of the Over-Allotment Option. A purchaser who acquires Class T Units forming part of the over-allocation position acquires those Class T Units under this prospectus supplement, regardless of whether the over-allocation position is ultimately filled through the exercise of the Over-Allotment Option or secondary market purchases.

Subscriptions will be received for the Offered Units offered hereby, subject to rejection or allotment in whole or in part, and the right is reserved to close the subscription books at any time. Closing of this Offering is expected to occur on or about June 8, 2016 and, in any event, no later than 90 days after the date of this prospectus supplement. The Agents will hold funds received from subscribers and if the closing of the Offering has not occurred within 90 days after the date of this prospectus supplement, the Offering may be withdrawn in which case subscription proceeds received from prospective purchasers in respect of this Offering will be returned to such purchasers promptly without interest or deduction. Up to \$15,000,000 in Offered Units may be sold pursuant to this Offering (up to \$17,250,000 in the event the Over-Allotment Option is exercised in full).

The TSX has conditionally approved the listing of the Class T Units distributed under this prospectus supplement on the TSX, subject to fulfilling all of the listing requirements of the TSX on or before August 4, 2016.

Registrations, transfers and redemptions of Offered Units will be effected only through the book-entry only system administered by CDS. Beneficial owners of Offered Units will not have the right to receive physical certificates evidencing their ownership. A purchaser of Offered Units will receive a customer confirmation from the registered dealer from or through whom the Offered Units are purchased. All rights of Unitholders must be exercised through, and all payments or other property to which such Unitholder is entitled will be made or delivered by, CDS or the CDS participant through which the Unitholder holds such Offered Units.

Pursuant to policy statements of certain Canadian securities regulators, the Agents may not, throughout the period of distribution, bid for or purchase Units. The foregoing restriction is subject to certain exceptions, on the conditions that the bid or purchase not be engaged in for the purpose of creating actual or apparent active trading in, or raising the price of, the Units. Such exceptions include a bid or purchase permitted under applicable by-laws and rules of the relevant self-regulatory authorities relating to market stabilization and passive market making activities and a bid or purchase made for and on behalf of a customer where the order was not solicited during the period of distribution. Pursuant to the first mentioned exception, in connection with this Offering, the Agents may over-allot and effect transactions in connection with their over-allotted position. In connection with this Offering and in accordance with and subject to applicable laws, the Agents may engage in transactions that stabilize or maintain the market price of the Class T Units at levels other than those which might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time.

The Fund is not a trust company and is not registered under legislation of any jurisdiction governing trust companies as it does not carry on, nor does it intend to carry on, the business of a trust company. The Offered Units are not “deposits” within the meaning of the *Canada Deposit Insurance Corporation Act* and are not insured under the provisions of that Act or any other legislation.

The Agents have agreed that the Agents will not solicit acceptances or offer to sell Offered Units in the United States or its territories or possessions or from United States Persons (as that term is defined in Regulation S under the United States Securities Act of 1933, as amended (the “**1933 Act**”)) except as permitted by United States securities laws. The Offered Units have not been, and will not be, registered under the 1933 Act. Accordingly, except in limited circumstances, the Offered Units will not be offered, sold or delivered in the U.S.

The Agents that have participated as agents under the Fund’s initial public offering of Units on December 14, 2015 are entitled to receive, for a period of time, an annual deferred compensation in relation to the initial public offering based on the NAV of the Fund and the NAV of the Class T Units purchased under the Fund’s mandatory market purchase program.

INTEREST OF MANAGER AND OTHERS IN MATERIAL TRANSACTIONS

The interest rates, fees and expenses under the Prime Brokerage Facility are typical of a credit facility of that nature and the Fund may be required under the Prime Brokerage Facility to provide a security interest in favour of NBCN Inc. over the assets held by the Fund to secure such borrowings.
